ENTERPRISE MOBILITY

Mobility is entering mainstream information technology (IT) as enterprises look at mobility as a key enabler for their business process automation. At VCS, we look at mobility as a paradigm for efficiency and engagement. We also look at mobility as the means to blend the right access and the right context to provide the right leverage that transforms the way businesses are conducted.

SAP CONSULTING

VCS consulting is a customer focused highly skilled professional services consulting company specialized in SAP.

Our business strategy built on our expertise in consulting, technology and outsourcing to help clients perform at the highest levels. Using our industry knowledge, service-offering expertise and technology capabilities, we identify new business and technology trends and develop solutions to help clients around the world.

TECHNOLOGY CONSULTING

VCS Consulting Services comprise a comprehensive team of Consultants and thought leaders specializing in Information Technology (IT) Consulting and Operational Excellence. We help our customers transform their businesses, processes, and operations, with innovative strategies aligned to the specific needs of their industry and unique organizational requirements.

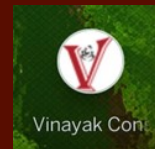

CLOUD SOLUTION

VCS is a new cloud solution provider from Singapore with solutions built from the ground up to provide truly real-time, scalable and easily managed cloud infrastructure for start-ups, developers and business throughout Asia. VCS's interface allows customers to build, order and manage their Servlets quicker and easier, through a faster and simpler panel than many in today's market. VCS Virtual Machines, or Servlets, are much faster than ordinary dedicated servers. VCS also provides SSD cloud servers for much faster performance.

We believe that the true advantages of the cloud to businesses should be its scalability, speed and advanced manageability. We bring full automation and true real-time provisioning to our hosting customers so they can truly build and expand their business and have real peace of mind when it comes to their infrastructure.
